Summer 1987

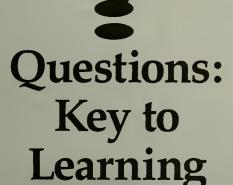

Lebanon Valley College Magazine

Trustees
Approve
Campaign

From the President

I am preparing today for a *challenging* and *fascinating* conference—a week-long seminar to which fifteen college presidents have been invited by the Christian A. Johnson Endeavor Foundation to discuss some of the major problems of contemporary educational leadership. It will be *challenging* because each of my colleagues in this venture is an outstanding educator. It will be *fascinating* because our discussion will be set against the backdrop of a large number of readings of great philosophical and religious works.

Part of my homework on this Fourth of July weekend consisted in the rereading of Plato's Republic. As a political philosopher by training, that quintessential work has been, of course, a staple in my intellectual diet over the past forty years as professor, public servant and president. Even so, it was exciting to once again think through the main question asked in the Republic-"What does Justice mean and how can it be realized in human society?" Weaving back and forth through the Socratic dialogue I ultimately arrived at that question Socrates called the most important of all questions: "How ought we to live?" A philosophical query, a religious invitation, and indeed, a very practical matter of day to day decisions, this question is, all in all, a suitable theme for this, my last quarterly message as President of Lebanon Valley College.

"How ought we to live?" in this case refers to what we have done, together, during the past three and a half years: What kind of stewardship have we shown?; What dreams have hardened into fact?; What visions still remain?

Let me say at the outset I am very proud of what we have done jointly, as a College community, and of what each segment has accomplished individually. What we have done, we have done as a team. We have built upon the solid foundations of the past and now look to the future with great expectations, with irrepressible confidence and with the excitement of a great institution rapidly

enhancing its ability to serve all of its constituencies and determined to do so. Let us examine the factual basis for my optimism.

1. Our student body. We will open, in all likelihood, with a higher enrollment this September than in Fall, 1986, despite the diminished pool of high school graduates. The quality of our student body is reflected in our Leadership Scholarship winners who set the pace for the entire student body with average SAT scores of 1143. We will have the largest number of male matriculants in September, 1987, that we have had for nearly a decade, and we are encouraged as well by the steadily increasing enrollments in our Evening, Weekend and Special Programs.

2. Financial Condition. We recently paid off all indebtedness on the College dormitories and that act, in conjunction with the early retirement of the Garber Science Center bonds last year, means that all buildings currently in use on campus, but one, are debt free (Blair Music Hall, whose principal carries extremely low interest payments is still encumbered.) Pledges and payments for the new Arnold Sports Center are most encouraging! A continuation of the current giving pattern for this exciting and much needed new facility will mean it, too, could be debt free within a relatively short period of years.

During these years when we have moved toward a debt free campus, our endowment has doubled. Three and a half years ago, endowment stood at approximately \$4.6 million. Today, it is at about \$9 million.

Most of this dramatic improvement is the direct result of the hard work of my predecessors, particularly, Dr. Fred Sample. Sound investment policies of our Board Committee on Finance and Investments, aided by the rise in the stock market, were also instrumental in bringing about this most favorable development.

During each of the past three years, we have worked very hard to operate within a balanced budget. This year we are again pleased to note a substantial operating surplus.

We are pleased too, that during these years our campus has expanded from 50 acres to over 300 acres including a beautiful 100-plus acres adjacent to the campus and a lovely environmental studies park of over 140 acres in the historic Gettysburg area.

3. Academic programs. As exciting as the news is with respect to our student body and the bright financial picture that has emerged over the past few years, perhaps the most significant developments have occurred in the heart of our educational enterprise, the academic program itself.

Three and a half years ago, when I was selected to become the fourteenth president of Lebanon Valley College, I announced that it was my most earnest hope that this great and good institution would rededicate itself to the development of Leaders whose Judeo-Christian Values would produce a new commitment to Community. As a team, we then

committed ourselves to that task. Today, though much remains to be done in reifying this goal totally, I believe we have moved well down the path toward its accomplishment.

Our Leadership Studies program, with a strong *Values* orientation, is in place and every student will henceforth better understand the obligations and opportunities of leadership in a free society, and more fully share in the improvement of the community in which he or she dwells—whether that community is the immediate extended family or the larger community of all humankind.

So, as we look back at what we set out to do and what we have accomplished, I hope that all of us-alumni, Board members, faculty, staff and administration have been good stewards of our charge "to maintain forever an institution of high grade." I am certain that each of us who has played a leadership role during these past four years hopes this chapter in the life of the College will be seen, to use the military analogy, as a "staging period" when the College prepared for a massive assault to conquer the heights of true educational greatness. I, for one, believe it. If each of us continues to give our love and support to the imperative work ahead, it will be so!!!

Connie and I will find it very hard to leave this warm and wonderful family. These years have been challenging and rewarding for both of us. Although we have been part of many outstanding college and university communities over the years, we have never felt as much love for an institution and its people as we have felt for the Lebanon Valley family, nor have we ever felt as loved as we do here in your midst. Your supportive understanding has been particularly meaningful as we have had to make the decision to move into circumstances that are less demanding and stressful.

I will not attempt to express the deep gratitude I feel for your individual contributions to the progress we have made here during this one generation of college students. Suffice it to say that each of you, by letter, by telephone, by earnest effort of your appointed task, by gift, by an encouraging word, by constructive criticism, by your loyalty to LVC, have answered the question that Socrates asked: How ought we to live? You have answered it with your lives of service and love for one another, your loyalty to the high ideals of a private, church-related school, by your continuing quest for excellence, by your manifest, values-centered leadership in your professional and personal lives and in your caring concern for community. You are LVC, writ large, and the Petersons are proud and deeply grateful to have been an intimate part of this great institution. Thank you for that privilege!

Sincerely,

Arthur L. Peterson

From the Editor:

A good subtitle for this issue is "LVC—Past, Present and Future."

Melissa Huffman's article "Long on Hope" gives us a look at one of tomorrow's surgeons. A review of the international exhibit "Anne Frank in the World" describes how a modern display teaches us about the past and provokes us to think about the future of our world.

The LVC trustees have looked into the future and recently approved a capital campaign that will take us into the 1990's and beyond.

And Professor Don Byrne gives us a glimspe of how he challenges today's student, citizen of tomorrow.

This issue wouldn't be complete without a review of Alumni Weekend and Commencement to tie it all together

Jaril a. Heister

... LVC — Past, Present and Future. Enjoy this issue!

Sincerely,

Maril A. Weister

Editor

Correction: A photo in the Spring edition incorrectly identified Dorothy Smith (Mrs. Harry E. Smith) as Dorothy Fencil Smith. An article in the same issue incorrectly identified Murl Golden as Dorothy Gulden and Kathryn Wheeler Ganci was incorrectly listed as Kathryn Wheeler Snavely. Our apologies to these individuals.

Long on Hope

by Melissa J. Huffman

(L to R) Emmanuel "Manny" Paul, Becky Long and Dr. Harlan Daubert discuss the slide Becky has been studying.

That would you do if you needed a bone replacement? Currently, you would have to settle for an artificial implant. But, if research teams around the world have anything to say about it, you will someday be able to get what you need from a local bone bank, similar to the familiar blood bank.

Like all medical somedays, that day will come when research unravels the web of mystery surrounding the problem of preserving articular cartilage. One person who has worked on solving this mystery is Becky Long, a senior biology major at LVC. Last semester Long participated in research at The Hershey Medical Center. And, according to Emmanuel "Manny" Paul, team lab technician, she asked a million questions.

And that is where it all starts. With questions. The specific question Long's team tried to answer was "What is the best way to preserve articular cartilage, which is found in most moveable joints?" The answer, when found, could lead to the establishment of bone banks.

Professional journal articles keep world-wide research teams informed on what has been tried to date, both successes and failures. Long completed her own literature review of the topic before joining Hershey's research team and learned that the bone itself can be preserved, but because the cartilage does not function the bone cannot be implanted in a human being.

Her team studied two ways of preserving the cartilage. The first involved taking the chondrocytes, which are free cells in the cartilage, out of the matrix and freezing them. "It is essential," says Long, "that these be preserved because they are the only living part of the cartilage." The second way involved freezing the whole articular cartilage intact, matrix and all. The matrix includes everything surrounding the cells, which is extracellular material.

To guard against ice formation within and around the cells during freezing, the team used the two types of cryopreservatives proven most successful to date: glycerol and dimethylsulphoxide (DMSO).

The team formed two opinions as to why the chondrocytes aren't surviving when the entire cartilage is preserved, matrix intact. One is that the cryopreservatives aren't getting deep enough into the cartilage to preserve the cells. The second is that the cryopreservatives are toxic and are killing the cells.

The researchers tried a staining procedure to see how far into the cartilage the cryopreservative was going. "They were very excited about the method and thought they had the answer," says Long. But they couldn't consistently produce the same results and so they had to abandon the method. Long tried to learn why various methods didn't work. She looked at cells before and after freezing and tried to determine if the cells were damaged and, if so, what parts.

Through Dr. Allen Wolfe, professor of biology at Lebanon Valley College and Long's advisor, she learned to use an electron microscope, which has a built-in camera, to take pictures of the cells before and after freezing. Becky says she literally jumped up and down when she got her first pictures, exclaiming, "I found some cells! I found some cells!"

"Very few times is there a gigantic breakthrough," says Dr. Harlan Daubert, a research fellow at Hershey. "The way you get that is to have little breakthroughs."

Research is very repetitious, methodical work that rarely produces immediate results. According to Dr. Daubert, a typical week included coming up with a question pertaining to the study; designing and completing an experiment to answer the question; getting cartilage for experimentation (team favorites were baby chick femurs and cow's knees shavings); putting the data into a computer and analyzing it to see if the question could be answered.

This frequently was tedious, but Long seemed to thrive on it. "Her greatest asset is her enthusiasm," says Dr. Daubert. Wolfe agrees that, although Long asks a lot of questions, she always is willing to seek answers for herself.

These characteristics and her personal experience led her into research.

While in high school, she underwent knee surgery for abnormal softening and degeneration of cartilage, which is related to osteoarthritis. Typically, Long asked a lot of questions and her doctor provided information. Having been interested in architecture and medical design throughout high school, Long began thinking about the structure and design of the knee.

In time, Long formed a hypothesis for a study of her own. Cartilage degeneration, according to her hypothesis, is directly related to mechanical misallignment and variations in matrix composition. But she didn't stop with the hypothesis. She sought the advice of Dr. Henry Mankin, professor of orthopedics at Harvard Medical School and chief of orthopedic surgery at Massachusetts General Hospital, one of the leading hospitals in the country for orthopedic surgery. Dr. Mankin, a world-reknown expert on cartilage metabolism, was so interested in her hypothesis that he invited her to spend a week in his lab.

There, Mankin and Long discussed her hypothesis and he expressed his belief that it was a good one. However, he pointed out, there was no way to prove it because any degeneration would be due to causes other than Long's manipulation. Since it is essential in any study to eliminate all variables except the one with which you are working, Long would need a way to preserve articular cartilage.

Mankin encouraged Long to keep her hypothesis and try to design a study to prove it. She plans to do just that. Currently, those suffering from osteoarthritis are treated with drug therapy, restricted mobility and probable surgery. If Long's study is successful, proper treatment would allow the patient to return to normal without major life adjustments.

That is more than enough incentive for Long to plan a career in clinical research and orthopedic surgery. "I don't want to lose touch with the patient side of medicine," she says. She hopes to obtain a Ph.D. and M.D. simultaneously, which will involve six to seven years of education, in addition to residency.

This enthusiasm, intensity and dedication are precisely what is needed for the tall order of curing osteoarthritis. But those are precisely the qualities Long possesses and that is precisely what she plans to do.

International Exhibit on Campus

by Maril A. Weister

A noville had much in common with such major U.S. cities as Miami, New York, Baltimore and Boston when the international exhibit, "Anne Frank in the World: 1929-1945" arrived on campus for a thirteen-day stay in May.

And while most cities had to pay \$13,000 to get the exhibit, it came to the Lebanon community for only the cost of transportation to Lebanon

tion to Lebanon.

"Cornelis Suijk, the international director of the Anne Frank Foundation in Amsterdam felt pretty strongly about making the exhibit available to the community," said Grayson Covil, a spokeswoman for the New York Anne Frank Center.

Suijk made the offer in recognition of a bequest of approximately \$186,000 to the Anne Frank Foundation from the will of Fredericksburg (Lebanon County) artist Hedy Deeds, whose cousin married Otto Frank, Anne Frank's father.

Area residents Eleanor and Ken Watts, neighbors and friends of Deeds, were executors of Hedy's will, and two of the many area residents responsible for bringing the exhibit to the Annville campus.

Says Eleanor, "One of the objectives of the Anne Frank Foundation is to educate the next generation so something like this

won't happen again."

William J. McGill, LVC dean of faculty and member of Lebanon's St. Luke's Episcopal Church where the Watts also attend, believes that "having this exhibit affirms the College's commitment to serving the broader community in a way consistent with our educational and moral purposes."

McGill also served on the committee of local citizens who coordinated the details of getting the exhibit to the area. Several committee members including Lebanon's Rabbi Louis Zivic felt that the College was the best place in the county to display the exhibit because of its size.

More than 5600 people, including 30 school groups, viewed the Anne Frank Exhibit at Lebanon Valley College in May.

Sixty panels (10 feet high) of 800 illuminated, silk-screened photographs of Anne Frank and her family plus other historical photographs tell the story of the Holocaust. Also included in the exhibit are manuscripts, a model of the secret annex where the Frank family hid, and a video for school children.

The photographs capture the moments of everyday life and also depict such larger events as the gradual separation of Jews and non-Jews, which led to the final deportation. Attention is drawn to both the Nazi collaboration and resistance.

The exhibition also treats the aftermath of World War II, and considers not only the immediate political aftershocks such as the division of Europe, but today's re-emergence of Nazism and the denial of the Holocaust.

Because Otto Frank was an amateur photographer, the exhibit includes many pre-war photographs of the Frank family, including photos that reveal an Anne not often seen before—laughing with friends or with her older sister Margot, who also died at Bergen-Belsen.

This is the Anne who was adored by her cousin Buddy Elias. He told McCall's magazine last year that "Anne carried her heart in her hands—she was never very good at covering up her feelings"

Many of the Frank family photographs came from a scrapbook left anonymously at the Anne Frank Center in Amsterdam in 1980, according to Covil. "The donator probably found the scrapbook in a piece of old furniture," she added.

The purpose of revealing an intimate look at the Frank family is not sentimental, said Dewar MacLeod, researcher and educator at the Anne Frank Center.

By showing that Anne Frank was "an ordinary girl," creators of the exhibit hoped viewers would realize that "an updated version of Nazi ideology is not inconceivable."

The exhibit, which is concurrently touring in Europe and Japan, has been touring the U.S. since it opened in New York City in June 1985.

More than 5600 people, including 30 school groups, saw the exhibit while it remained on campus.

Board of Trustees Approve Capital Campaign: Authorize \$6.5 Million Goal

t its regularly scheduled meeting on May 8, the Board of Trustees authorized the establishment of a \$6.5 million ▲ goal for the yet to be "officially announced" 125th Anniversary Campaign. This exciting news comes following a quiet solicitation of Board members for their support of a capital campaign which will move into a more active phase this Fall.

It was the positive, early response of Trustees and a few special friends which enabled the College to proceed with the groundbreaking for the Edward H. Arnold Sports Center in April of this year. One of the major objectives of the campaign is to raise the funds to support the costs of the center while at the same time adding significantly to the endowment of the College.

President Peterson, in speaking of the pace set by the Trustees, remarked: "It has been inspiring and encouraging in this period - before we even publicly announce our fund raising plans - to see how so many have responded so generously to the important needs of the College. In The 125th Anniversary Campaign we will be seeking to assure the continued vitality of Lebanon Valley College into the 21st Century. We're certainly off to an auspicious beginning!"

Plans for the campaign have been underway for well over a year. Trustee Charles W. Wolfe '44 has accepted the National Chairmanship of the effort and Trustees Edward H. Arnold and Harlan R. Wengert have chaired the Trustee and Major Gifts Committee which has set such an impressive pace. Allan W. Mund will serve as Honorary Chairman of the campaign. This Fall, committees chaired by Martin L. Gluntz '53 (Leadership Gifts), Dr. Carroll E. Ditzler '58 (Special Gifts), Dr. Arthur L. Ford (Campus Gifts), Dr. Gerald D. Kauffman '44 (General Gifts) and John R. Eby '57 (Corporate and Foundation Gifts) will begin their important work.

The projects and programs to be addressed with funds raised through The 125th Anniversary Campaign fall into three categories:

I. The need to increase athletic facilities;

11. The need to increase the endowment;

III. The need to fund special projects;

A description of each of these needs follows.

I. The Need to Increase Athletic Facilities

Lebanon Valley College is fortunate to have a campus with excellent physical facilities that meet most requirements for classrooms, faculty offices, dormitories and dining halls and administrative offices. However, serious deficiencies exist in one area of the physical plant: sports and recreation.

During the past twenty-five years, a major change in the quality, size and diversity of intercollegiate athletic and recreation facilities has occurred at a majority of the colleges with which Lebanon Valley College competes for students. Lebanon Valley College was near the "top of the list" in terms of sports facilities in 1961; today the College finds itself near the bottom in these same areas

Most of LVC's competitor colleges have not overlooked the importance of having first-rate facilities for intramural and recreational use. Lebanon Valley College necessarily deferred addressing this need while raising funds for the Science Center. Now, however, the time has come to focus attention on this very important aspect of the College's program. To quote from a recent report submitted by a Presidential Committee on Intercollegiate Athletics: "an imperative exists to improve our athletic/recreational facilities at the earliest possible time. Without a major effort to improve our facilities, we are convinced that we will have a difficult task in attracting both quality athletes and students in general to enroll at Lebanon Valley College."

As a result of early success in The 125th Anniversary Campaign a new recreational sports facility —The Edward H. Arnold Sports Center—is currently under construction. While the center is not completely funded as of yet, it is clear that by the end of the campaign in 1991, it will be possible to retire any short-term loans required during the construction process.

Charles W. Wolfe '44

II. The Need to Increase the Endowment

In this era of high costs and financial constraints, the reserve funds which can be put to work earning interest and dividends - the endowment of the College - can provide the margin between offering a good education and an excellent education. Endowment income serves as one of the bridges between tuition and fees and the total cost of a college education. It is also cost effective, for gifts placed in the endowment fund are never consumed but continue to provide annual support for generations to come.

At Lebanon Valley College, the financial support from increased endowment income is especially needed in two areas:

To provide increased scholarship aid to students;

To provide additional endowed professorial chairs.

Many students attend college under considerable financial pressure. Indeed, it is fair to say that most young men and women who seek a college education require financial assistance. Because the need for financial aid is so great, the availability of scholarships is a major factor in the enrollment of outstanding students. If Lebanon Valley College is to remain competitive, the College must increase its scholarship funds.

Competitive faculty salaries are also of utmost importance to the future of Lebanon Valley College. Revenues from increased endowment will supplement tuition income and enable the College to seek out and retain the highly qualified faculty necessary to maintain educational excellence.

A major objective of The 125th Anniversary Campaign is to increase the endowment of the College.

III. The Need to Fund Special Projects

Finally, the College must address itself to funding the special projects which are a part of quality educational programming. Special support for both capital and current needs is the key to the ability of the College to balance the budget. This type of support allows the College to respond to unforeseen opportunity and challenges. It is essential that Lebanon Valley College continue to experiment, revise, renew and expand its offerings to insure that its programs remain dynamic and relevant. Unrestricted funds provide flexibility for this process to occur.

The College will pursue two primary educational objectives with funds raised by The 125th Anniversary Campaign.

- To purchase additional computers for the campus to be used by administration, faculty and students;
- To fund special projects as necessary and appropriate.

All of these projects are essential to the future of Lebanon Valley College. If the College is to remain strong and vital it simply must address the need for much-improved athletic facilities and increased endowment while also providing the resources to fund special projects and programs.

As Fall approaches, graduates and friends will be hearing more about The 125th Anniversary Campaign and their important

role in assuring its success.

Questions: Key to Learning

"Outstanding" professor Dr. Don Byrne leads a class discussion.

In February 1987, the College began a series of weekly columns with the Lebanon *Daily News*. Topics, written by LVC students, faculty and administrators, have covered a variety of issues including how to prepare for college . . . how to pay for college . . . and what graduation day means.

In this reprint, Dr. Donald E. Byrne, associate professor of religion and 1987 corecipient of the Lindback Award for distinguished teaching, describes (via a self-interview) what makes an outstanding teacher.

Q: Dr. Byrne, what are the qualities of an outstanding teacher? A: It's difficult to give a simple answer to that question. The many outstanding teachers I've known at this College and elsewhere come in all shapes and sizes. Some lecture beautifully, others lead intriguing discussions. Some teach as much by what they are as by what they say. Some are popular, others are not. Some are warm and friendly, but others, you'd swear, lived on nails and dry ice.

Q: I see your point. Still, there must be something that all these different types have in common.

A: For a start, they know their stuff. Most students have a pretty good nose for phonies.

Q: Anything else?

A: Honesty. It may sound strange to say this, but teachers who really know their stuff also know better than anyone else the stuff they don't know. They're not afraid to answer a student question by saying, "I don't know."

Q: That does sound strange. Who would want to be taught by an ignorant teacher?

A: It's a different kind of ignorance than the kind that masquerades as knowledge. There are lots of people around who think they know everything about religion, politics, business—you name it, they've got all the answers. But they're really bigots, and sometimes fanatics, because they don't know their limits and won't listen to anyone else. That's real ignorance! The "I don't know" of the teacher, on the other hand, is the beginning of learning, not the end. If you ever run into a teacher who thinks he's finished, he probably is.

Q: This is a bit confusing. Do you always speak in riddles?

A: Good teachers are alive with questions, and communicate curiosity to their students. It's easy and boring to just know things. The fun is to discover them, and for that you need someone pushing and leading you on. A good teacher senses the mystery just beyond the limits of what we know.

Q: Mystery? Limits? Aren't you getting a bit carried away? What ever happened to the tried and true view that teachers were supposed to dish out information on a subject and test students' ability to master it?

A: Nothing wrong with that, up to a point. Carried too far, it's the sort of thing that gives education a black eye. The best teachers I've seen are not like fast food restaurants, spewing out tons of tasteless information. Rather, they try to get their students to think more deeply, truly, courageously, imaginatively, broadly, and compassionately than they ever have before. And for that you need questions.

Q: Questions? You're being deliberately provocative. And besides, I like fast food.

A. Yes, questions, the pure gold of teaching, and as hard to find. A good question is worth a thousand answers. Really good questions knock you out of your socks and show you how dumb you really are. Little kids are particularly good at asking questions. Usually adults shush them up, most often because they're annoyed at being unable to answer them. Only when you don't have an answer, and you know you don't, are you ready to begin learning. An outstanding teacher is a person who gets you to that place where you can begin teaching yourself.

Q: Frankly, I have more questions now about what makes a teacher outstanding than I did when we began. Could you put it in a nutshell? Would you say that you are an outstanding teacher?

A: Well, what do you mean by "outstanding?"

Alumni Weekend '87

LVC Honors Distinguished Alumnus

Dr. Howard A. Neidig '43 was named the 31st Distinguished Alumnus at LVC's Alumni Awards Luncheon during Alumni Weekend held in June.

Neidig received a B.S. degree in chemistry from Lebanon Valley College in 1943 and an M.S. degree in chemistry from the University of Delaware in 1946. Two years later he received the first Ph.D. in chemistry granted by that institution. The same year, LVC appointed Neidig as an assistant professor of chemistry and in 1951, Neidig succeeded his mentor, Dr. Andrew Bender, as chairman of the department. Neidig filled that position until his retirement from the faculty in 1985, thus completing 37 years of service to his Alma Mater.

Neidig was a major leader in the development of the Chemical Bond Approach Project, a new thematic approach to the teaching of chemistry, sponsored in the '60s by the National Science Foundation. In 1970, Neidig received the prestigious Outstanding Chemistry Teachers Award of the Manufacturing Chemists Association. He has been active in every level of the Division of Chemical Education of the American Chemical Society and has made significant contributions to science curriculum development in the Commonwealth of Pennsylvania.

Neidig also served on the Palmyra Area School Board and the Board of Trustees of Keystone Junior College.

Helen Neidig accepted the Distinguished Alumnus Award for her husband, H. Anthony (Tony) Neidig. A ruptured appendix and subsequent surgery prevented Tony's attendance at the Alumni Awards Luncheon. Wes Dellinger, presented the award

Alumni Association, presented the award.
"I feel even more committed today than when I was an active member of the Lebanon Valley College faculty to the necessity for our institution to be a national and international leader in undergraduate education in as many academic areas as possible. In order for my dream to come true, all of us must continue to support the Valley in as many ways as possible. The health of the College depends on the continued support of dedicated people like yourselves.

"The future of Lebanon Valley College is ours! Let's make it great!"

Tony Neidig

During the Alumni Awards Luncheon on June 6, five alumn were awarded alumni citations for outstanding personal achieve ment and service to the College. Recipients were (left to right front row: Woodrow S. Dellinger, Sr. '33 (for Woodrow S. Dellinger, Jr. '62, research associate at The Johns Hopkins Universit in Baltimore, MD, who was unable to attend due to illness) and Eleanor R. Snoke '28, retired research associate with The Curti Publishing Company in Philadelphia, PA.

Back row (left to right): **Donald B. Frantz '73**, general manage for Musical/Comedy LA in Los Angeles, CA; **Darwin G. Glid '58**, certified public accountant and prominent community leade in Lebanon, PA; and **Edward B. Ruth, Jr. '65**, recipient of the Pennsylvania 1984 Outstanding Biology Teacher of the Yea Award and recently-appointed assistant director of Intermediat Division Education at The Milton Hershey School, Hershey, PA

John Walter '53 accepts the Miles Rigor award from Wesley T Dellinger '75, president of the Alumni Association.

Moments To Remember

Jane Gruber Seiverling '43 and Bob Schalkoff '88 share a moment of glory at the 1987 Alumni Awards Luncheon. Seiverling received a "special award" from the LVC Alumni Association for her work with The Scholarship Committee. Schalkoff was one of two LVC seniors to receive a \$1,000 Alumni Scholarship this year. Amy Jo Kresen of Beaver Springs, PA was taking graduate exams and could not be present.

The Class of '37, which celebrated their 50th anniversary, was inducted into the Senior Alumni Association by Henry H. Grimm '35, president of the Association. Pictured left to right, front row: Marjorie Smith Trego, Ruth Buck Schlegel, Ruth Phenicie Welsh, Romaine Stiles Smeltzer, Pauline Yeager Richie, Cordella Sheaffer Felder, Ruth Goyne Berger; second row: Theodore M. Loose, Grace Naugle Sinclair, Lois Harbold Guise, Anna Orth Himmelberger, Sarah Light Aungst, John M. Brosius, Edna Binkley Walmer; third row: Paul K. Waltz, Charles B. Kinney, Jr., F. Allen Rutherford, Jr., Paul C. Billett, Russell C. Hatz, Donald E. Shay, Henry C. Steiner, Edward R. Bachman, and Jack R. Morris.

Elizabeth Sattazahn Davis and John and Martha Swope, all members of the Class of '42, reminisce as they look through photos in the Carmean collection.

Gus Ziegler '17 poses with Karen McHenry Gluntz '82 after receiving a prize for being the oldest alumnus present at the Alumni Awards Luncheon in June. Gus received a Lebanon Valley College armetale license plate. If you're in Hegins, PA, be on the alert for Gus, who continues to drive around town.

Alumni Weekend . . . memories made.

Phyllis Deitzler Dimpsey '42 greets Kathryn E. Brehm '42 preceding the Awards Luncheon.

D. Clark Carmean and Mary Jane Sample share LVC memories captured on photos. Carmean and his wife, Edna '59 displayed a variety of their personal LVC photo collection.

Some of the more than forty participants in the Sixth Annua Golf Tournament held during Alumni Weekend '87 pose on the Fairview Golf Course in Quentin. John Morris '32 (back row fourth from right) of Ellenton, Florida received recognition for being the oldest golfer and the golfer coming the longest distance

Chris Roberts '74 (right) and Joe Shemeta '52 (left) were awarded first and second place trophies (respectively) for low scratch. Other prizes were awarded to Jim Davis '72, low calloway; Bob McGrorty '82, longest drive; and Chris Roberts '74, closest to the pin.

Campus Update

Commencement '87

"The best life plan you can make is to be aware" says Dr. Grace Murray Hopper, who delivered the Commencement address to the Class of 1987. Hopper was presented the Honorary Doctor of Science degree during the festivities.

"You are the future of this country, and all of what we are trying to do will lie in your hands."

Rear Admiral Grace Murray Hopper

During her commencement address, Dr. Grace Murray Hopper, the Rear Admiral who was retired as the U.S. Navy's longest-lived officer on active duty in August, 1986, challenged the 1987 graduates to accept their role as catalysts for a future of change.

"The best life plan you can make is to be aware," stated Hopper. "Know what's going on in the world, be aware of news, of developments, of things that are happening. In your chosen field stay up to date. Keep being aware for what's coming next so that as you move along the next opportunity that comes you can be ready to grab it, because opportunities will appear."

Hopper herself never shunned change and took hold of opportunity. At the time of her retirement from the Navy, she was assigned to the Naval Data Automation Command in Washington, D.C. Much of her military service was devoted to keeping the United States

Navy on the leading edge of computer technology.

Since 1952, Hopper has published more than 50 papers and articles on computer software and programming languages. She was a leader in the development of the COBOL computer language and has served on the ANSI X3.4 Committee on the standardization of computer languages. She also serves on the CODASYL Executive Committee.

She is a Phi Beta Kappa graduate of Vassar College were she received a Vassar College Fellowship. She continued her education at Yale University where she earned an M.A. in 1930, and a Ph.D. in 1934, together with election to Sigma Xi and the receipt of two Sterling Scholarships. She attended New York University as a Vassar Faculty Fellow in 1941.

During her career, Hopper taught at several colleges and universities, including Vassar College, Barnard College, Harvard University, the University of Pennsylvania and George Washington University.

At her retirement ceremony aboard the U.S.S. Constitution in Boston, Navy Secretary John F. Lehman, Jr. presented Hopper with the Distinguished Service Medal. More than 40 colleges and universities have conferred honorary degrees on her, and she has been honored by her peers on several occasions. She was the recipient of the first Computer Sciences "Man of the Year" award given by the Data Processing Management Association. Her entry in "Who's Who" takes 34 lines to thumbnail her accomplishments, appointments and honors. Upon retirement from the Navy, Admiral Hopper became a Senior Consultant for the Digital Equipment Corporation in Washington, D.C.

Before Admiral Hopper finished her address, she left the graduating class a promise.

"If during the next five years any one of you says, 'but we've always done it that way,' I will instantly materialize beside you, and I will haunt you for 24 hours and see if I can get you to take another look. And I know it works. I've already had over 100 letters thanking me for haunting people."

Yeakel '49 Delivers Baccalaureate Address

"Think globally, act locally," was the message Bishop Joseph H. Yeakel of the Washington, D.C., Area of the United Methodist Church brought to the 1987 graduates during the College's annual Baccalaureate service.

Yeakel's message encouraged the graduates to be "citizens of the world." "Those who are

privileged to be educated among us must serve the world if it is to survive," said Yeakel.

Yeakel, a native of Mahanoy City, PA, received his B.A. degree in 1949. In 1968, he received an honorary D.D. degree from his alma mater.

Yeakel spoke of his graduation day when Lebanon Valley College "set him free without setting him adrift." "Today, you will be set free and hopefully will not go adrift."

Yeakel completed his study for the ministry in 1952, receiving an M. Div. degree from the United Theological Seminary, Dayton, Ohio. He was ordained the same year in the former Evangelical United Brethren Church.

In 1963, Yeakel joined the staff of the EUB Board of Evangelism, serving first as assistant secretary and from 1965 to 1968 as executive secretary. After merger between the Evangelical United Brethren and The Methodist Church, he became secretary of the Board of Evangelism. Four years later, he was elected a bishop in the new denomination—the first former EUB so honored.

After twelve years in the New York West Area, headquartered in Syracuse, Yeakel was reassigned to the prestigious Washington, D.C. Area.

Bishop Joseph H. Yeakel '49 delivered the Baccalaureate address in Miller Chapel.

Yeakel, president of the United Methodist General Council on Finance and Administration, also is a member of the Board of Governors of Wesley Theological Seminary and the Board of Trustees of Sibley Memorial Hospital in Washington, D.C. From 1976 to 1980 Yeakel chaired the General Board of Church and Society. He also is a former president of the New York State Council of Churches.

Yeakel received an honorary doctor of law from Otterbein College, Westerville, OH, in 1975 and an honorary doctor of sacred theology from Keuka College, Keuka Park, NY, in 1978.

Prior to joining the EUB Board of Evangelism, Yeakel served as pastor of St. Paul's (now Otterbein Church), Hagerstown, MD, pastor of the Fifth Church (now Messiah), York, PA, and pastor of the Memorial Church, Silver Spring, MD. Before attending LVC, Yeakel served in the United States Navy Seabees in Guam and the Marianna Islands.

Yeakel and his wife, Lois J. Shank, reside near Washington, D.C.

Arnold, Wengert Receive Honorary Degrees

President Peterson congratulates Edward H. Arnold, president of New Penn Motor Express, as he receives the Honorary Doctor of Humane Letters degree.

The Honorary Doctor of Humane Letters was presented to Edward H. Arnold, president of New Penn Motor Express, Lebanon, and the Honorary Doctor of Science degree to Harlan R. Wengert, president of Wengert's Dairy, Inc., Lebanon, during LVC's 118th Commencement.

"It is indeed a privilege to recognize the accomplishments of our honorary recipients who have provided exemplary leadership in their chosen profession on a local and regional basis, and nationally," said Dr. Arthur L. Peterson, President of the College, and presenter of the degrees.

Arnold, a trustee of Lebanon Valley College since 1975, has occupied a number of key leadership roles in the trucking industry including service as a director of Regular Common Carrier Conference, as a director and president of the Middle Atlantic Conference and as a member of the Executive Committee of trucking's national bargaining unit, Trucking Management Inc. Arnold is a member of the Board of the United Fund, vice president of the Library Board in Lebanon and a member of the Board of Trustees of Good Samaritan Hospital. He also serves on the Finance and Investment Committee and the Institutional Advancement Committee of the LVC Board of Trustees. He received a B.A. in accounting from the University of Notre Dame.

Harlan R. Wengert, president, Wengert's Dairy, Inc., listens as his Honorary Doctor of Science degree is bestowed during Commencement exercises.

Wengert has been a trustee of Lebanon Valley College since 1971. A leader in the State's dairy industry, he currently serves as president of the South Central Pennsylvania Milk Industry Association and as a member of the Milk Industry Foundation and the Pennsylvania Association of Milk Dealers. Locally, he is a director on the Board of the Lebanon Valley National Bank, chairman of the North Cornwall Planning Zoning Commission, past-president of the Lebanon Rotary Club and has occupied several key leadership positions at St. Andrews Presbyterian Church, Lebanon PA.

Wengert received a B.S. in Dairy Science and an M.B.A. from Cornell University where he earned the distinction of being ranked as first in his class.

Byrne & Townsend Receive Distinguished Teaching Awards

Dr. Donald Byrne, chairman of the philosophy and religion department, and Dr. Mark A. Townsend, assistant professor of mathematical sciences, received the Lindback Award given by the senior class in recognition of teaching excellence. The awards were presented during Commencement.

For the past two years the College has recognized the teaching excellence of its faculty through the assistance of the Christian R. and Mary F. Lindback Foundation. The award consists of a certificate and \$1,000.

Four Inducted Into Service Society

Lebanon Valley College officials inducted Mr. Richard C. Bell, assistant professor of chemistry, Dr. Agnes B. O'Donnell, professor of English, Mr. J. Robert O'Donnell, associate professor of physics, and John Walter '53, trial judge for the Lebanon County Court of Common Pleas and an active member of the College Alumni Association, into the Rigor Society established to honor individuals who have made a significant contribution to the institution through their distinguished and faithful service.

The Society was established in 1985 in honor of George Washington Miles Rigor (1831-1906) who played a key role in the founding of the College.

New Trustees Appointed

Carroll E. Ditzler '58, Mt. Gretna, PA, and Martin L. Gluntz '53, Hummelstown, PA, were named trustees of the College at the annual spring Board of Trustees meeting.

Ditzler, who was a chemistry major, earned a master's in that field from the University of Delaware before completing his work for the D.D.S. degree from Temple University in 1964.

His dental practice has included family and general dentistry procedures and periodontal surgery and functional jaw orthopedics.

A Lebanon Valley musician of note, he is well-known for both his instrumental and vocal contributions to a variety of local musical organizations. He has been actively involved in LVC fund raising activities for many years. Ditzler resides in Mt. Gretna with his wife, Jean, and daughter, Janelle Carol.

Gluntz, a native of Steelton, PA, received his B.S. in chemistry from LVC in 1953 and shortly thereafter served for two years in the U.S. Army. After earning a master's and Ph.D. in organic chemistry from the University of Delaware, he joined American Cyanamid in 1960, transferred to Tenneco, Inc. in 1966 and then to Hershey Foods Corporation in 1969 where he is presently vice president, Manufacturing and Distribution Services - Hershey International Ltd.

Gluntz has served as past president of the LVC Alumni Association and is currently a member of the advisory committees for the College's English, Management and Chemistry Departments. He has been actively involved in LVC fund raising activities for almost 20 years and was a 1986 recipient of the LVC Alumni Association's "Alumni Citation."

Gluntz is the father of five children, Marti Lynn Van Scyoc, Michael, Marcia, Matthew and Mitchell, and has one grandson, Bradley. He resides in Hummelstown with his wife, Karen, LVC executive director of development.

University of Minnesota Selects LVC Team

Dr. William J. McGill, vice president and dean of faculty, Dr. Arthur Ford, chairman and professor of English, and Dr. John Heffner, professor of philosophy, will represent the College at the National Endowment for the Humanities Summer Institute on Humanities Scholarship and Instruction for Non-traditional Students at Minnesota University in August.

Applications were competitive, with only 25 institutions nationwide receiving invitations to send teams. LVC was one of two institutions from PA invited, one of three private liberal arts colleges invited.

McGill said the selection of LVC to participate "recognizes the College's commitment to non-traditional learners through its programs at Annville, Fort Indiantown Gap, and Harrisburg and will provide us with an opportunity to further strengthen the cultural and historical dimensions of those programs."

Faculty Attend Leadership Workshop on Campus

LVC held a Leadership Studies Faculty Training Workshop in June for faculty interested in the College's Leadership Studies Program.

"The LSP Faculty Training Workshop was designed to help prepare our faculty members and administrators interested in our program in particular and the study of leadership in general," said Warren Thompson, director of the Leadership Studies Program.

Speaking at the workshop was Thomas Cronin, McHugh Professor of American Institutions and Leadership, Colorado College, Colorado; Jack Christ, director of the Leadership Studies Program at Ripon College, Wisconsin; and Douglas Wallace, director of the Center for Ethics, Responsibilities and Values at the College of Saint Catherines, Minnesota.

Computers Donated

Sixteen Apple II computers and related peripheral equipment were donated to the College by Commonwealth National Bank, Harrisburg, PA.

The equipment will be used by the science and management departments for data gathering and experiments, and expands the number of classroom computers available to students according to Dale Erskine, LVC professor of biology.

Planned Giving News

An "Estate Planning Seminar" was held on campus in May. Topics included "The Role of Your Accountant in Estate Planning," "Why You Need A Will," "Charitable Giving Through Your Life Insurance," "Estate Planning for Women," and "An Invitation to Explore Trusts."

Plans for a fall seminar are underway. For information call the Development Office at (717) 867-6222.

Many thanks to this year's Estate Planning Advisory Committee members who helped develop the first seminars: Betty Herr, The Equitable Life Financial Services, Myerstown; Thomas N. Cooper, Egli, Reilly, Wolfson, Sheffey, Schrum, Lebanon; Jay N. Dutweiler '52, Hamilton Bank, Lebanon; Larry Eberly, Lebanon Valley National Bank, Lebanon; Mary Ann Gacono, V. Carl Gacono Real Estate and Insurance, Annville; Darwin Glick '58, Glick, Stanilla & Siegel, Lebanon; D. John Grace, Jr. '55, Certified Public Accountant, Hershey; Richard E. Harper '81, E. F. Hutton, Wormelysburg; Jon Yost '64, Yost & Davidson, Attorneys at Law, Hershey.

A Suggestion For 1987

Why not resolve to review your will during 1987 (or have a will drawn if you have not yet taken this important step). You may need to update your will if changes have occurred among your beneficiaries or with your estate planning.

Always consult an attorney when drawing a will or amending an existing one. Please call or write to the Executive Director of Development for the folder, "Four Ways to Provide for Lebanon Valley College in Your Will." This will help your attorney if you decide to make a bequest to the College. Your attorney will need to know the legal title of the College: "Lebanon Valley College, Annville, Pennsylvania."

Shonk Scholarship

A new scholarship of approximately \$1,500 has been established through the estate of Alvin E. Shonk '16. The Scholarship, to be awarded to a member of the freshman class, is renewable annually and awarded on the basis of financial need, academic standing and participation in clubs or intercollegiate sports. Information is available through the Admissions Office at 1-800-223-6181 in Pennsylvania or 1-800-445-6181 outside the state.

Chemistry Department Receives NSF Grant

LVC's Chemistry Department received a \$23,000 grant from the College Science Instrumentation Program of the National Science Foundation in May.

The matching grant from the acquisition of a gas chromatograph/mass spectrometer (GC/MS) was awarded on the basis of a proposal written by Dr. Owen A. Moe, Jr., associate professor of chemistry, entitled "The

Introduction of a Gas Chromatograph/Mass Spectrometer into the Chemistry Curriculum to Strengthen Laboratory Instruction."

"This is a sophisticated instrument rarely found in small colleges," said Moe.

The instrument is used to separate components of complex chemical mixtures, to determine the molecular masses of the individual components, and to make possible the identification of the components, and is used in the analysis of trace environmental contaminants such as pesticides and chlorinated hydrocarbons, in drug testing and analysis, and in many types of basic chemical studies.

Hotel Management Program Is Revamped

Beginning the fall of 1988, Lebanon Valley College will offer a four-year degree program in hotel management.

Vice president and dean of the faculty, William J. McGill, says the program will have a different quality from that of the two-year program previously offered. "This will be a hotel management program still in the context of a liberal arts education," he explained.

For two years, the College has offered associate's degree programs in hotel management, food services and travel administration. Upon recommendation of a study committee, the food service and travel administration programs will be discontinued, and the hotel management program will be expanded into a bachelor's program within the management department.

"In a sense, the (associate's programs) were sort of appendages on the Institution," McGill said. "They had no firm rooting in a department."

But with Lebanon Valley's being a scant seven miles from Hershey and less than 20 miles from Lancaster, expansion of the hotel management program into a four-year course of study (rather than eliminate it entirely) was a logical choice.

"We're in the middle of an area where hotel management and resorts are a fairly significant portion of the economy," McGill said. "Because of the environment and our desire to reflect in some way that environment, it was a natural thing for us to do."

Students entering the program, however, won't simply learn the tricks of the trade. Each must meet the same general education requirements that LVC students enrolled in more traditional programs must meet.

"The program operates like the four legs of a table," says Alan G. Heffner, management department chairman. "They must take the liberal arts core. They'll take core courses in management and in specific hotel theory, and practice it all with internships."

Heffner said the program has been designed to prepare students for a wide range of jobs.

"Not every graduate is able to get a job specific to the hotel industry," he said.

"Because of the general educational core and management courses, however, they can look to other areas. And if they decide to change careers, they will be well-prepared."

Hotel Management article adapted from Yvonne Simmith's May 10 article in the Harrisburg Patriot.

Philadelphia Auxiliary Holds Spring Luncheon

Mary Rank Hain '30 of Malvern, PA, hosted the Spring Luncheon Meeting of the Philadelphia Auxiliary in May. Co-hosting the event were Peg Talbot and Dorothy Warren, friends of the College. Anne Shroyer Shemeta '51 and Mildred Myers '30 presented a piano duet.

Future functions of the Philadelphia branch include:

July 9 Luncheon at the home of

Margaret Weinert Kramer '63 in Yardley

August 20 Dessert Bridge at the home of Helen Kaufmann

of Helen Kaufmann, Springhouse Estates

November 14 Pre-Christmas Gift Sale and Luncheon at the home

of Martha Kreider Rudnicki '34, Media

Any alumna, past or current parent, or friend of the College interested in attending any of these functions should contact:

Mrs. Helen Kaufmann Membership Chairman Springhouse Estates Apartment F-213 Springhouse, PA 19477

A Silver Anniversary

Dr. C. F. Joseph Tom (right), professor of economics, coordinates an annual bus trip to New York City, Washington D.C. and/or Philadelphia for LVC students interested in business careers. G. Harold Bucher '47 (left), president and chief executive officer of the People's National Bank, Lebanon, PA, which underwrites the cost of the trip, believes a strong relationship should exist between business and education.

For the past 25 years, the People's National Bank, under the leadership of president and chief executive officer G. Harold Bucher '47, has sponsored the Lebanon Valley College Economic Lecture Series. And for the past 22 years, the bank has provided additional educational opportunities by underwriting an annual student bus trip and giving a scholarship award for achievement in economics and business administration.

According to Bucher, the lecture series provides students and faculty with the opportunity to hear the personal experiences and professional opinions of various leaders in the fields of economics and business. Past lecturers include Lincoln W. Hall, staff economist with Fidelity-Philadelphia Trust Company; Ewan Clague, former Commissioner of Labor Statistics, United States Department of Labor; Dr. David Eastburn, former president of the Federal Reserve Bank of Philadelphia: Charles O'Hay, senior vice president and chairman of the investment policy committee, Butcher and Singer, Inc.; and several professors of economics and business administration.

Though the lecturers give students indirect experience with "the real world of business," the bus trips allow them to gain first-hand insight into how the theories of economics and business administration are put into practice on a daily basis. Bucher emphasizes the need for this insight on the part of students. He stresses the importance of flexibility in using theory as a guideline while at the same time "relying on good common sense" to make sound decisions on an ongoing basis.

The trips span two days and one night, with the People's National Bank covering transportation and hotel expenses. Dr. C. F. Joseph Tom, professor of economics and coordinator of the trips, says the excursions alternate between New York City and Philadelphia/Washington D.C. "That way," says Tom, "students can see a different place each year."

In New York City, the students visit the Manufacturers Hanover Trust, Rothchild's, the New York Stock Exchange, the Federal Reserve Bank and Merril, Lynch, Pierce, Fenner and Smith. On the combined Philadelphia/Washington D.C. trip the students tour the Federal Reserve, the Mint, the Bureau of Engraving, the House of Representatives, the Senate, the Federal Reserve—Board of Governors and the Smithsonian.

In addition to the opportunities the lectures and trips provide for all students in the department, the bank has set up an achievement scholarship award to help students who excel in the field. The primary criterion for the award is scholastic achievement, and economics department determines the number of recipients based on their qualifications.

"There should be a nice strong relationship between business and education," says Bucher. Tom credits Bucher for much of the success of the programs. Tom, who chaired the department from 1964 - 74, formalized many of the programs set up by the bank. He too believes the two arenas should be closely related and wishes more businesses would follow the fine example set by Bucher and the People's National Bank.

Who's Who Group Honored

Front row (left to right): Drew Williams, Cindy Smith, Kathy Kleponis, Laura Pence, Missy Hoey, Barb Feaster, Lorraine Englert and Krista Bensinger.

Middle row (left to right): Scott Rocco, Karen Karapandza Townsend, Marquerite Salam, Sue Olinger, Mary Beth Seasholtz, Maria DeMario, Betsy Martin and Gregory Hessinger.

Back Row (left to right): Nick Vlaisavljevic, Michele Reichert, Joe Pennington, David Miller, Jeffrey Lesher, Ross Hoffman, Steve Witmer, David Campbell, and Kevin Biddle, Missing from the picture is Tina Marie Bakowski.

The College honored 26 seniors who were selected for the 1987 edition of Who's Who Among Students in American Universities

and Colleges at LVC's annual student awards ceremony in April.

Faculty Profile

Donna Anderson, assistant professor of economics, attended the 19th annual Pennsylvania Women's Legislature Exchange Conference in March. The theme of the conference was "Women in the Constitution in the Next 200 Years."

Anderson presented a paper "The Impact of the 1986 Elections on the Trade Deficit" at the meeting of the Pennsylvania Political Science Association held in April at Albright College.

She also was named a new board member of Lebanon Family Health Services, a non-profit community agency that offers reproductive and other family health services to citizens of Lebanon County.

Rick Arnold, assistant professor of management, attended the American Accounting Association International Accounting Forum featuring presentation of papers by American and foreign accounting faculty. This event was held in conjunction with the annual Mid-Atlantic Regional Meeting of the AAA held in Atlantic City, NJ, which he also attended.

Sharon Clark, assistant professor of management, recently attended a seminar in Harrisburg that dealt with sexual harassment in housing and employment. The seminar was sponsored by the Harrisburg Human Relations Committee. In attendance were State dignitaries and representatives from the Human Relations Committee.

Dr. George Curfman, professor of music education, was published in the fall issue of *Network*, the PA Music Educators Association's Curriculum/Instruction Newsletter. The article identified learning outcomes that should occur as results of student involvement in music classes.

Curfman attended the Eastern Division Conference of Music Educators National Conference in Baltimore, MD, in March and represented the College at the business meeting of the Pennsylvania Collegiate Music Educators Association at Elizabethtown College.

Filling in for the State Faculty Advisor who was not able to attend, Curfman was State Faculty Advisor to PCMEA chapters for the two preceding years.

Hilda M. Damus, professor emerita, and Dr. James Scott, professor of German in the department of foreign languages, recently presented a two-day series of workshops at the University of Northern Alabama at the invitation of the Alabama Chapter of the American Association of Teachers of German.

The workshops presented information and developed questions regarding the history

and present day nature of the socialist society in the German Democratic Republic.

Dr. Barbara J. Denison, director of the LVC Leadership Development Institute, recently attended the annual meetings of the North Central Sociological Association. Denison served as organizer and discussant of a research paper session on "Religion and Conflict." She serves as executive officer of the Association.

Dr. Pierce Getz, professor of music, recently attended a workshop on "Developing Organ Technique" for the Lancaster Chapter of the American Guild of Organists.

He played a recital at Camp Hill United Methodist Church, Camp Hill, PA, in March in celebration of the dedication of the re-built pipe organ.

In April, the Concert Choir, conducted by Getz joined the Alumni Chorale in performing Haydn's "Lord Nelson Mass" and the Borodin "Polovetzian Dances" with the Harrisburg Symphony Orchestra as a part of the Symphony's final performance.

Symphony's final performance.

At the annual spring concert of the Lebanon Choral Society held in April at St. Luke's Episcopal Church, Lebanon, the Choral Society presented Getz with an "Excellence in Music Award" in recognition of his many years of distinguished contributions to the musical life of the Lebanon area community.

Dr. Bryan Hearsey, professor of mathematical sciences, chaired a panel discussion on preparing for an actuarial career at Moravian College in April. The panel is part of the spring meeting program of the Eastern Pennsylvania & Delaware section of the Mathematical Association of America.

Hearsey has been invited to serve on the Advisory Panel to the Committee on American Mathematics Competitions, which involves writing questions and editing various national mathematics exams.

Dr. Robert Hearson, assistant professor of music and director of bands, served as guest conductor for the Lancaster-Lebanon County Eastern Division Band Festival, held in Lebanon in March. The symphonic band and wind ensemble included 125 high school students representing nine schools of the Lancaster-Lebanon region.

Dr. Allan Heffner, associate professor of management and chairman of the department, was a guest of the Central Pennsylvania Chapter of the Financial Executives Institute at their "Educators Night" dinner meeting in March. Two speakers spoke on the topic: "International Competition: What Should Colleges Do To Prepare Students?"

Dr. John Heffner, professor of philosophy, attended the annual meeting of the Metaphysical Society of America at the Lin-

coln Center Campus of Fordham University, New York, in March.

Heffner and **Dr. Perry Troutman**, professor of religion, attended a conference on Messianism in Christianity, Judaism and Islam at Elizabethtown College in March.

Rick Iskowitz, chairman and professor of art, served as juror for the Lebanon County Federation of Women's Clubs' "Festival of the Arts," and for the Lebanon County Prison Art Show. "Philadelphia Billboard," a black and white photo by Iskowitz, shared first place honors in photography in the Juried Museum Exhibition, Greater Harrisburg Arts Festival in May.

Dr. Robert Lau, chairman of the music department, appeared as a member of the string orchestra which accompanied singer Dionne Warwick in a recent appearance in Harrisburg. Miss Warwick presented the concert as a fund-raiser for Temple Ohev Sholom.

Lau acted as a Career Resource Person during the Career Day activities held in April at the Palmyra Area High School.

Phil Morgan, assistant professor of music, conducted a workshop for the PA Music Educators Association in March at William Penn High School in York. The workshop was entitled "Survival Kit for Teachers of Vocal Music."

He also performed a program of Broadway music with the David Bilger Duo at Doneckers Restaurant in Ephrata, PA.

Morgan with be a vocal advisor this summer for Hershey Entertainment and HER-SHEYPARK. He will teach voice to the casts of Music Box Theatre, the Country Hoedown and Dance, Dance, Dance.

Dr. C. F. Joseph Tom, professor of economics, recently attended the 1986-1987 Chautauqua Faculty Development Program administered by the American Association for the Advancement of Science held in early March at Christian Brothers College in Memphis, TN.

Tom has been accepted on the program of the Twenty-Fourth International Atlantic Economic Conference to be held in New York City, NY, September 3 to 6, 1987.

Professor Tom will present his paper entitled "BASIC Programming for the Integration of Money, Demand Deposits Creation, and the Hicksian-Keynesian Model."

Tom has received notification from Clearinghouse for Social Studies/Social Science Education that his paper on Basic Programming for the Integration of Money, Demand Deposits Creation, and the Hicksain-Keynesian Model has been published in microfiche.

The abstract of his document was published in the April, 1987 issue of *Resources in Education*, a monthly publication printed by the Government Printing Office that contains abstracts of indexed materials of interest and value to the educational community.

LVC Sports

Hessinger Receives Maston and Zola Award

Greg Hessinger, son of Mr. and Mrs. Frank Hessinger, Whitehall, PA, received the Chuck Maston and John Zola Memorial Awards at the College's 38th Annual All

Sports Banquet held in April.

Hessinger, a member of the Class of '87 who received a B.A. degree in political science, played at linebacker and led the team in tackles each of the last three seasons and served as co-captain his junior and senior year. He also was selected the team's Most Valuable Player each of the past two seasons.

Off the field, Hessinger excelled in academics and was selected as a member of Who's Who Among Students in American

Colleges and Universities.

The Chuck Maston Memorial Award was established in 1952 by the Knights of the Valley. This award is made annually to a male member of a varsity team who has displayed the exceptional qualities of sportsmanship, leadership, cooperation, and spirit, both on the athletic field and in campus activities.

The John F. Zola Award was established in 1962 by the Lebanon Valley Varsity Club. The award is presented to the football player showing qualities of desire, attitude,

sportsmanship and initiative.

Athletes Honored At Banquet

An All Sports Banquet honored LVC athletes who competed during the 1986-1987 sports season.

Receiving special recognition awards were: Shawn Fitzgerald, Oxford, CT, Scott Wallace Award (selected by the football coaches for a returning player with good academic standing); Steph Smith, Lebanon, PA, Woman Sportsmanship Award (selected by Delta Lambda Sigma sorority); Penny Hamilton, Millersburg, PA, Outstanding Woman Athlete Award (selected by Kappa Lambda Nu sorority); and Helen Filippone, Kenilworth, NJ, Fellowship of Christian Athletes Award (selected by the members of the Fellowship of Christian Athletes from nominations made by the head coaches).

The following student athletes received Most Valuable Player honors:

Penny Hamilton, Millersburg, PA, and Anne Cessna, Lykens, PA, co-MVP's, women's basketball; Glenn Kaiser, Dresher, PA, and Kerry Meyer, Lebanon, PA, co-MVP's, wrestling; Glenda Shetter, Chambersburg, PA, MVP, field hockey; Penny Hamilton, Millersburg, PA, MVP, softball; Don Hostetler, Camp Hill, PA, and Len Bolinsky, Frackville, PA, co-MVP's, men's basketball; Jim Sekella, Fleetwood, PA, and Kevin Dempsey, Philadelphia, PA, co-MVP's, soccer; Greg Hessinger, Whitehall, PA, and Paul Walsh, South Plainfield, NJ, co-MVP's, football; Joanne Giannittino, Purdy's, NY, and Cindy Sladek, Philadelphia, PA, co-MVP's, women's track; Lance Shaffer, Elizabethville, PA, and Andy Bender, Fredericksburg, PA, co-MVP's, baseball; John Hibshman, Annville, PA, and Ed Slagle, co-MVP's, cross country/men's track; and Chris Arnold, Collegeville, PA, MVP, golf; Cindy Sladek, Philadelphia, PA, and Sue Yingst, Annville, PA, co-MVP's, women's cross country.

Lou Sorrentino, director of athletics, and Arthur L. Peterson, president of the College, pose while holding the Middle Atlantic Conference Family Portrait. The picture, celebrating the conference's 75th Anniversary, was presented to Peterson at the College's 38th Annual All Sports Banquet as a gift from the athletic department.

Hall of Fame Inductees Named

Seven former athletes have been selected for induction into the LVC Athletic Hall of Fame. The athletes will be inducted into the College's Hall of Fame during Homecoming ceremonies scheduled to be held on the Annville campus Saturday, October 17, 1987.

Former athletes to be inducted are O. Pass Bollinger '28 (deceased), Frank Boran '35, Nicholas Bova, Jr. '52, Bruce Decker '69, Dixie Drybread '75, Lawrence Priester '76, Kristopher Linde '73.

Faculty Member Wins Marathon

Congratulations to Donna Anderson, assistant professor of economics, for winning the women's division of Good Samaritan Hospital's five-mile Street Fair Run in June. She finished with a time of 29:55.

Fall Sports Schedule Announced

The following schedules have been announced for the 1987 fall sports season so make plans now to support LVC athletics! Tentative schedules will be followed by ***.

Tental	Tentative schedules will be followed by ***.

Classnotes

Alice Clupper traveled throughout Denmark and Norway last summer.

40 George A. Katchmer has a collection of over 700 8mm super 8 films of the silent era, and 76 VHS movies of silent films. He has written "The Forgotten Cowboys and Cowgirls," five articles on the silent era, covering 282 actors and actresses and has written 78 biographies of silent stars for Classic Images.

41 Clinton D. Zimmerman is in his third year as teacher for the Hebron Senior Citizens Sunday School Class at the Iona (PA) United Methodist Church.

43 Frederick S. Frantz, Jr. retired from Westinghouse Electric Corporation after 31 years of service. During that time, he worked at the Bettis Atomic Power Laboratory on projects for the navy, the Astronuclear Division working on the nuclear powered rocket program (NERVA) and at the Advanced Reactor Division working on the nuclear breeder reactors FFTF and the Clinch River Breeder Reactor Plant.

Currently, Frantz is filling in as office manager at his church during a pastoral vacancy.

'44 Hazel Fornoff Detambel is in her fifth year as organist at Westminster Presbyterian Church and in her third year as organ instructor at California State University, Sacramento, CA. During the past year, she has been a recitalist at three Sacramento churches. In recent years, she also has been piano accompanist for several choral groups and the Sacramento Opera Association's opera outreach program in the public schools.

45 E. Stephen Raby retired in June of 1985 after serving 20 years as pastor of First Evangelical United Brethren Church (later known as Albright United Methodist Church) in San Antonio, TX.

Wayne L. Mowrey directed the Lutheran Church (Chambersburg) choir in two renditions of Onward Chambersburg. Mowrey composed the melody and Raymond Depuy wrote the lyrics to the song which was unanimously adopted as the official song of the Borough of Chambersburg, at the 75th birthday celebration of the Greater Chambersburg Chamber of Commerce.

In December, Mowrey performed an organ recital on the Moller organ in the Otterbein United Methodist Church in Mont Alto, Pennsylvania. His wife, Jane Klucker Mowrey '43, assisted in the recital as his accompanist for a vocal solo and as his partner in a piano duet.

'49 Dennis L. Funck, after more than 34 years of service, retired from Du-Pont last November.

Howard B. Kreider, Jr. is president of HBK Quality Consultants, Inc. and Cushman Sales, which designs and manufactures special cabinets and components made of hard woods for churches and businesses.

Thomas M. Zimmerman retired in February after teaching for more than 35 years in The North Star School District, Kantner, PA.

Robert P. McCoy retired in June of 1986 after teaching music for 37 years. He continues to give private music lessons and teaches auto mechanics in adult school.

'50 Doris Eckert Ketner is secretary of the Reading Music Teachers Association. Ten of her students were entered in the national piano auditions.

James W. Parsons retired from Sperry Corporation in March of 1986. Parsons, using a pickup truck and trailer, made a solo tour of the Northwest Territories, Yukon Territory and Alaska in July and August of 1986.

'51 Carl L. Gerberich is vice president for information services for Marist College in Poughkeepsie, NY.

Ruth Brown Zimmerman and her husband, Bill, are missionaries-in-residence at the headquarters of the General Board of Global Ministries of The United Methodist Church in New York City. The Zimmermans, who have completed 30 years of Christian service in Southeast Asia, most recently taught at Trinity Theological College in Singapore.

152 E. Maxine Garvin Fritz recently returned from a visit to Zimbabwe, Africa.

Robert M. Daugherty was appointed council director for the Eastern Pennsylvania Conference of the United Methodist Church last July.

Phillip Hayes and his wife, Mary, have retired after more than 30 years of teaching in the public schools. They now enjoy gardening, babysitting their grandsons and redecorating their farm house.

Melvin R. Nipe recently retired from Monsanto and currently is working as a consultant.

153 M. Ross Evans retired in January after 34 years as a band director. Evans also was president of the Delaware Music Education Association for two years.

His wife retired in January after teaching for 15 years at Orthopedic School in Dover, DE. They have three sons and seven grand-children.

Carl W. Daugherty retired last November from Singer-Link Co. in Binghampton, NY, following 22 years as technical editor/writer.

Richard M. Furda retired last December from AT&T Technologies as district manager of building operations.

Albert E. Moser retired in June of '84 after teaching for 31 years in Scotia-Glenville Central Schools. He recently celebrated 21 years of ordination in the Episcopal ministry and serves as assistant pastor at St. Andrews Episcopal Church in Scotia, NY. He is beginning his fifteenth year as musical director of the Schenectady German/American chorus. Two sons serve in the U.S. Air Force, one as a photographer in Frankfort, Germany, and the other in San Antonio, TX.

154 Betty C. Hungerford has been named director of development and communications for Tri-County Planned Parenthood, Inc., in Harrisburg, PA. She also is president of the Pennsylvania Public Relations Society, a board member of the Dauphin Unit of the American Cancer Society, and vice president of the Lebanon Valley College Alumni Association.

155 Henry B. Hollinger co-authored (with Michael Zenzen) "The Nature of Irreversibility," Reidel Publishers.

157 Joan C. Conway has been promoted to full professor at Hope College. She completed five years as co-founder of the successful two-piano camp for high school students, has published an article in *Clavier* magazine, will be a recitalist at the Michigan Music Teachers fall convention, and will appear with the Fontana Players in recital. Conway remains active as a performer, adjudicator and clinician throughout the mid-west.

Robert J. Nelson, vice president for Royal Insurance and retired chairman of the Board of Governors for the Insurance Crime Prevention Institute, has been elected to the Board of Governors for three groups: the Insurance Arbitration Forum, Inc.; the 600 Festival Association in Charlotte, North Carolina; and (also in Charlotte) the Pine Lake Country Club.

John R. Eby was elected president and chief executive officer of Commonwealth Communications Services, Inc., in Harrisburg, PA. CCS owns 9 companies in broadcasting (TV and radio), publishing and graphic services.

Sally Crobaugh Beaver retired last year from her 18-year position as disability claims adjudicator for the state of Pennsylvania. Beaver is choir director for the Unitarian Church of Harrisburg, a member of the Hershey Symphony Orchestra, a board member for the South Central AIDS Assistance Network, and a radio reader for the Blind Association.

Janet Tingley Deitrich is celebrating the second anniversary of her West Cobb Mini Maid business in Atlanta, GA.

Ruth C. Reddinger worked as an extra for four days last January during the filming of "Illegally Yours," starring Rob Lawe and Colleen Comp. Reddinger is in the background of the initial scene, "walking with the man wearing the coca-cola hat" and is the "third called prospective juror." Reddinger, a registered nurse, lives in St. Augustine, FL.

159 Louise Bartram Hagen recently celebrated her 25th wedding anniversary. The mother of six children (three college graduates, two college students, and a 12-year-old son), Hagen returned to college and earned a Bachelor of Science in Computer Science from Stockton State College, NJ. She currently is pursuing her masters degree in that field. In addition to her parenting and studying, Hagen enjoys a successful career with the Federal Aviation Administration. Her home is in Linwood, NJ.

60 Ronald L. Dietz founded and presently coordinates a campus-wide organization designated 1.T.A.G. or Interactive Technologies Applications Group. The group's goal is to investigate and incorporate the latest video high technology disc-based instructional and informational systems on the campus of Towson State University.

Martha Rudnicki Williams received a master of arts degree in history from George Mason University in January. She currently serves on the board of directors of the Archeological Society of Virginia and is chairperson of its education committee. She will complete 25 years as a teacher with the Fairfax County Public Schools.

'61 Evelyn Berger Kerr is "now savoring life in Giessen, Germany." Kerr has been in 25 different countries and has resided in Japan (three years) and Panama (three years). "Still think the U.S. is best."

Rosalyn R. Knapp is a colonel in the United States Air Force and recently celebrated her 24th year of commissioned service.

162 Jean M. Morgan of Charlotte, NC was one of 15 poets invited to participate in "The Legacy of American Poetry: In Celebration of the Poet Laureate." The event, held in March, was sponsored by The National Endowment for the Arts, in coopera-

tion with the Library of Congress, to pay tribute to "this country's first Poet Laureate Consultant in Poetry, Robert Penn Warren, and to the young generation of poets who are carrying on and developing the tradition of American poetry."

Morgan was invited upon the recommendation of Reed Whittemore of College Park, MD, a former consultant in poetry to the Library of Congress. Her first book of poetry is titled *High Priestess of Change*, and a second volume *Easements and Restrictions* is in progress. Her poem "Grafting" was awarded the annual Hoepfner Prize as the best poem to appear in *Southern Humanities Review* in 1983. In 1986, she was the recipient of the Bates Creative Writing Award at the University of South Carolina.

R. Frederick Crider, Jr., pastor of John Wesley United Methodist Church in Hagerstown, MD, has been named district superintendent for Cumberland/Hagerstown by Bishop Joseph Yeakel.

164 James D. Huey has joined Gacono Real Estate and Insurance of Annville, PA, as a realtor associate. Huey has worked in retail sales and real estate investment for the past 25 years.

Mary Ellen Olmsted Shearer taught "A Positive Approach to Discipline" at the April 1987 Children's Workers Conference for churches of the Eastern Pennsylvania Conference of the United Methodist Church and was a program participant in the "Resolve Through Sharing Conference" held at St. Luke's Hospital, Bethlehem in May. The conference was designed to train nursing and other health professionals in caring for people who experienced loss through miscarriage, stillbirth or infant death.

'66 Richard C. Hoffman is manager of internal operations-field service for AMP, Inc. in Harrisburg, PA.

Rodney H. Shearer taught a course in Old Testament at Moravian College during the fall semester and has been appointed to serve the Ono United Methodist Church in northern Lebanon County, PA beginning July 1.

Joel P. Behrens is a member of the music faculty of Millersville University and the National Flute Association. He has played first flute with the Little Orchestra Society of Harrisburg and has been associate conductor of the Harrisburg Wind Ensemble. Recently, he joined Marcia Englar on guitar in presenting a concert at Cornwall Manor, Cornwall, PA.

Thomas R. Embich was elected as a Derry Township (PA) Supervisor in 1986.

William J. Lamont, Jr. is vice president for agricultural products and systems develop-

ment for U.S. Quality Plastics, Inc. in Rome, GA. Lamont recently completed a term as president of The National Agricultural Plastics Association and, as Lieutenant Commander in the United States Naval Reserve, completed four active duty training periods at the naval station in Rota, Spain. He and his wife, Phyllis, also hosted two Flower and Garden tours in Western Europe.

168 Lynn Garrett earned her doctor of education degree from the University of Pennsylvania. She serves as supervisor of staff development for the Tredyffrin-Easttown School District in Berwyn, PA.

1975

Deborah Kay Brinser to J. Gary McDivitt in November 1986.

Gail Tyson to Joseph M. Pease on May 17, 1986.

1980

Elyce R. Chadwick to Theodore C. Reynolds, Jr. on June 21, 1986.

1982 Karen L. Fuller to William P. Ayes on May 24, 1986.

Kelly Sue Krout to Jud F. Stauffer in November 1986.

1984

Lois E. Kaslow to Hampton Hartley on January 1, 1987.

Michelle Elaine James to Christopher Wesley Roberts in April 1987.

Carol M. Jordan to The Reverend Terry G. Fleming on June 28, 1986.

Jennifer Margaret Lee to Robert Lee Dowd on September 20, 1986.

Mary A. Secott to Jeffrey Sanden in August

Margo S. Smith to Tuck M. Saunders on February 14, 1987.

ebruary 1 9**85**

Diane Patricia Detwiler to David Edward Ramage '82.

Janette Arlee Lasher to Mark Jacob Nee on May 2, 1987.

Alison Verrier to David L. Moyer '83 on August 16, 1986.

Peggy L. Leister to Kevin E. Bruck '85 on March 21, 1987.

Jacqueline A. Newcomer to Thomas Owsinski on December 27, 1986.

Births

Amanda and Rachel, twin daughters of **Robert** '75 and **Nancy Eckler**'74, model LVC sun suits, Alumni Association gifts. The Ecklers, parents also of five-year-old Daniel James, operate an ice cream store in Neptune City, NJ.

1970

Margaret Little Kreiser and Michael J. Kreiser, a son, Shawn Michael, on June 24, 1986.

To Patricia and **George L. Morse**, a son, David, on April 2, 1987.

To Marie and **Dr. Michael P. Waltz**, a daughter, Britta Marie, on March 19, 1987. The Waltz's have two other children, Michael Paul, Jr., born January 25, 1984, and Paul Kenneth, II, born June 13, 1985.

To Mr. and Mrs. **Thomas W. Cestare,** a daughter, Keeley Ann, on September 24, 1985.

1973

To **Ruth Wilson Kauffman** and Jonas B. Kauffman, III, a son, Lucas Wilson, on September 6, 1986.

1974

To Lucinda Burger Knauer and Davis Jay Knauer, a son, Preston Davis Knauer, on May 5, 1987. The Knauers also have a daughter, Christianne, 7.

To Susan L. Wood Nasuti and Richard C. Nasuti, a daughter, Claire Marie, on August 14, 1986.

1975

To Eileen Briggs DiRaddo and David DiRaddo, a son, Troy Richard, on February 21, 1987.

To **Tomi Fay Campbell Forbes** and Greg Forbes, their second son, Chandler Logan, on March 13, 1986.

To **Patricia West Kesselring** and Dr. William T. Kesselring, Jr., a son, Michael Thomas. The Kesselrings have two other children: Billy, 4, and Katie, 2.

To Barbara G. Schroeder-Buck and Richard C. Buck, a daughter, Emily Mary, on August 21, 1986. The Bucks also have a son Daniel, 3.

To Susan Margolf Poling and Gary Poling, a son, William Margolf, on February 21, 1985. To Susan Shemeta Stachelczk and Gregory J. Stachelczk, a daughter, Christine Long, on September 16, 1984.

1977
To Kerry Schassler Keenan and Gary Keenan, a daughter, Kathleen Diane, on May 30, 1986.

To **Deborah Starr Tuxhorn** and Darryl Tuxhorn, a son Joshua William, on May 10, 1985. **1978**

To **Brenda Hawkins Geist** and George F. Geist, a son Gregory Franklin on October 28, 1985 and a son, Justin Paul, on December 30, 1986.

1979

To Lisa Dromgold Bender and The Reverend D. Wayne Bender, a son, Alexander Wayne, on January 31, 1987.

To Elaine Thallner Bomberger and Jeffrey A. Bomberger '78, a son, Thomas, on November 13, 1985. The Bombergers also have a daughter, Ann Michelle, born on June 14, 1983.

To Peggy Dedrick Younkins and Curtis Younkins, a daughter, Karen Lynn, on October 22, 1986.

1980

To **Linda Gingrich Flynn** and Timothy P. Flynn, a daughter, Erin Michele, on May 27, 1986

To Susan Slaybaugh Mrazik and Robert J. Mrazik, a daughter, Jill Theresa, on May 7, 1986.

To Cindy Boyce Poliniak and David Poliniak, a son, Phillip David, on September 23, 1986. 1981

To Kay King Hatch and Jeffrey L. Hatch '79, a son, Scott Robert, on November 14, 1986, "Dad's" 30th birthday.

To Alyssa Dewire Gould and Leo J. Gould, Ill, a daughter, Katie Dawn, on September 24, 1986.

To Karen Veigel Stoltzfus and James G. Stoltzfus, a son, Joshua James, on July 25, 1986.

1982

To Lisa Naples Boccuti and Raymond J. Boccuti '80, a son, Gregory Raymond, on January 9, 1987.

To Janet Lynn Jacobs Dearstyne and Kenneth E. Dearstyne, Jr., a daughter, Andrea Lyn, on February 6, 1987.

To **Rebecca Newcomb Haegele** and Mark E. Haegele, a daughter, Amber Lauren, on October 7, 1986.

1984

To Jeannette R. Halterman Gehres and Mark A. Gehres, a daughter, Jessica Leigh, on December 18, 1986.

1985

To Kelly Kefford Tolbert and Christopher Tolbert, a son, Jeremy, on September 24, 1986.

In Memoriam

1918

S. F. W. Morrison, on March 30, in Clearfield, PA.

1921

Raymond L. Duncan, on February 6, 1987. 1922

Reuel E. Swank, on May 18, 1987, in Lebanon, PA.

1923

Joseph R. MacDonald, on December 15, 1986, in Palmyra, PA.

Paul S. Ensminger, on March 15, 1987, in Annville, PA.

Martha Gingrich, on February 21, 1986, in Annville, PA.

1924

Donald E. Fields, on May 29, 1987, in Lebanon, PA.

1925

Jerome W. Frock, on February 20, 1987, in Hershey, PA.

1926

Permelia Rose Emanuel, on March 5, 1987, in Harrisburg, PA.

1927

Earl C. Williamson, on December 15, 1986, in Telford, PA.

1930

Dorothy Gable Tompkins, on March 12, 1987, in Lebanon, PA.

Sara L. Ensminger, on April 19, in York, PA.

L. Percy Clements, Jr., on February 22, 1987, in Tampa, FL.

1934

Emma Fasnacht McGill in Lebanon, PA. 1935

Olive Kaufman Kleinfelter, on October 20, 1986, in Palmyra, PA.

1936

Esther M. Aumiller, on December 27, 1986, in Harrisburg, PA.

1938

Agnes Morris DuBois, on June 15, 1986, in Philadelphia, PA.

1939

E. John Zettlemoyer, on September 28, 1985. 1944

Betty June Bomgardner, on February 5, 1987. 1945

Peter Paul Chunko, on April 20, 1987, in NY. 1949

Earl E. Rhine, on June 4, 1987, in Lancaster, PA.

1960

Chester L. Wertsch, Jr., on March 31, 1986, in Baltimore, MD.

1961

David G. Poff, on January 30, 1987, in OH. 1967

Carol J. Grace, on December 20, 1986, in Bonn, West Germany.

Hermann W. Kaebnick, trustee emeritus, died on May 25 in Hershey, PA. Memorial services were held on June 7 at First United Methodist Church in Hershey.

David W. Trauger, a former assistant director of admissions at Lebanon Valley College, died on May 29, 1987 in Lebanon, PA.

In Memoriam

The late Dr. Donald E. Fields, LVC Librarian Emeritus, last November participated in the dedication of a plaque in the Gossard Library in his honor Miss Kathryn E. Schultz established a library endowment fund in excess of \$160,000 in honor of Dr. Fields and his wife Frances. The annual interest from the fund supplements the Library's operating budget.

Don was my friend.

It was a friendship which ripened over many years of mutual trust and respect.

With a library problem he was always able to help because he was a scholar as well as a professional librarian.

However, I think of him mostly at home in his little stone house steeped in history and charm. I think of long conversations before an open fire in his living room; sessions in his greenhouse watching the miracle of the night-blooming cereus coming into flower; gatherings around his table to sample the gourmet foods he and Frances had learned to prepare in cooking school; and quiet summer evenings in the privacy of his back-yard patio.

He was a many-sided man. An intellectual, he appreciated the classics but he also had a huge appetite for detective stories. An organist, he loved Bach chorales but he also had a large collection of jazz records. He was a botanist, a bird-watcher, and a carpenter.

He was a good listener with a keen sense of humor. He encouraged story telling. Then he would sit quietly, not missing a word, just putting in a pithy comment now and then.

He was kind, generous and courteous. He was a gentle man - and a gentleman.

He was my friend.

Remarks by Edna Carmean at the funeral service of Donald E. Fields on Sunday, May 31, 1987.

Just In . . .

Literature Award Established

LVC English majors in classes of 1987 and 1988 have established the Dr. Agnes Boyle O'Donnell Literature Award in honor of the long-term professor of English who retired in May, 1987 after 26 years of service.

The yearly award will be given to an outstanding English major with a deep understanding of and appreciation for literature and the human qualities that bring literature to life. The first award will be given in April of 1988 as part of the LVC Spring Awards Ceremony. The LVC English Department will designate the recipient.

"It is a great honor — and very moving, especially since it was set up entirely by student initiative," said O'Donnell. "I'm particularly pleased that the fund will be used primarily for the benefit of good students and the English Department."

Dr. O'Donnell, a native of Philadelphia, joined the LVC faculty on a part-time basis in 1961, assuming full-time teaching status in 1963. She received the A.B. degree in English from Immaculata College, the M.Ed. degree

in secondary education from Temple University, and the M.A. and Ph.D. degrees in English from the University of Pennsylvania.

College Receives Award

Lebanon Valley College recently received the Neographics '87 Silver Award for the "Report of the President 1985-86" publication. The award, given by the Graphic Arts Association, Philadelphia, PA, is a nationally recognized marketing event which promotes the talents and technical capabilities of the Mid-Atlantic region's \$5 billion graphic arts and printing industry.

Project director of the publication was Maril Weister, LVC director of communications; art director was Jeffrey L. Fanus, JF Graphics, Lebanon. Printing was handled by Sowers Printing Company, Lebanon.

Computer Workshops For You - Summer 1987

Sessions will be held in the Microcomputer Lab and Learning Center. Seminar fees include a light snack or lunch, sample data diskette and materials. CEU's will be awarded for successful completion of computer workshops.

Introduction to LOTUS 1, 2, 3 Release 2, Tuesday, August 4 & 11; 6:30 - 9:30 p.m.; Fee: \$95.00;

Using LOTUS 1, 2, 3 Release 2, Wednesday, August 19; 8:30 - 4:00 p.m.; Fee: \$95.00; Programming with dBASE III PLUS, Wednesday, August 22; 8:30 - 4:00 p.m.; Fee:

Hard-disk Management with MS-DOS, Thursday, August 13, 9:00 - 1:00 p.m.; Fee: \$65.00:

An Introduction to dBASE III plus, Wednesday, August 5; 8:30 - 4:00 p.m.; Fee: \$95.00; An Introduction to Word Processing Using MS-WORD, Saturday, August 8; 8:30 - 4:00 p.m.; Fee: \$95.00.
